POLICY ON USER ACCOUNTS

This policy specifies eligibility for user email and computer accounts for students, faculty, and staff at Xavier University, and describes the processes for creation and deletion of user email and computer accounts.

Students

Traditional undergraduates become eligible for a Xavier student user account with email upon matriculation/deposit. Most accounts are actually created when the students attend Xavier's Priority Registration Experience Program (PREP) in May and June.

Graduate and non-traditional students become eligible for a Xavier student user account upon admittance to Xavier.

Student accounts remain active while the student remains registered for courses with the University or is on approved leave of absence through the Office of the Registrar.

In the case of students who have not attended classes in some time (e.g., they have not graduated; are not registered for courses; have not officially withdrawn; have not gone on approved leave of absence), their accounts will be deactivated and deleted one year after they last attended classes at Xavier.

In the case of students who have graduated, their accounts will be moved to Alumni status and will continue to have access to their Office365 account (email, calendar, OneDrive storage)

Faculty and Staff

In most cases, Xavier user account with email is created when the letter of offer of employment is signed and returned to Human Resources.

Faculty and staff accounts are deactivated after last date of employment and deleted after ninety days. Exceptions to this rule must be submitted to the Provost's office and/or Human Resources for approval.

Retirees may retain their email accounts if requested.

Alumni

No user accounts currently exist for alumni that graduated prior to 2014.

Others

There is a small group of users who are "special" account users. These are account holders who are not faculty, staff, or students at Xavier but who are granted user accounts on an as-needed basis. Examples include members of the Board of Trustees, and certain contractors and affiliates. These individuals need a

sponsor to request access. The sponsor must complete a form and forward it to the Web Services Department, which reviews the request. To get a copy of this form, please contact the Portal System Administrator within the Web Services Department, who manages this small group of users.

Deactivated/deleted accounts will be reactivated if the student, faculty or staff member returns to an active role within Xavier. If the account has been deleted already, the original content will not be restored.

CONTACTING XAVIER

Please contact the Information Technologies Policy and Security Committee at irpsc@xavier.edu with any questions about this policy.

REVIEW CYCLE

This policy will be periodically reviewed and updated as appropriate.
